DETAILED ACTION

Election/Restrictions

Applicant's arguments filed on July 12th, 2004 have been fully considered and are persuasive. Claim 1 is generic and does read on all species.

Reason for Allowance

The following is an examiner's statement of reasons for allowance: Claims 1 through 13 of application number 10/654797 are allowable over the prior art of record in that the heat and moisture exchanger for selectively conducting a stream of air produced by a ventilator through a moisturizing medium or causing the stream of air to bypass the moisturizing medium, the heat and moisture exchanger comprises a housing having a ventilator-side port configured to be coupled to an outlet of a ventilator and a source of aerosolized medication, the housing also having a patient-side port configured to be coupled to a patient to provide ventilation to the patient; a structure within the housing forming a first path within the housing for conducting non-aerosolized air from the ventilator-side port through the moisturizing medium to the patient-side port and a second path within the housing for conducting air carrying aerosolized medication from the ventilator-side port to the patient-side port by bypassing the moisturizing medium; and a two way valve mechanism in the housing for selectively coupling the ventilator-side port into fluid communication with one or the other of the first and second paths.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
